

PORTABLE RANGE CO2 - FIRE EXTINGUISHER

FlameStop manufactures its own range of Australian Standards approved CO2 Extinguishers using state of the art production facilities at our Chatswood premises in Sydney. The range is approved to AS/NZS 1841.6 and has the following features:

- A light weight, high quality seamless aluminium cylinder that has been hydrostatically tested to 20.7 MPA.
- High quality nickel coated machined brass valve.
- Handles manufactured in stainless steel.
- High-pressure hose with swivel fitting and moulded handle
- The 2kg have a short ergonomically designed nozzle, which allows the extinguisher to unobtrusively hang on the wall.
- Designed for easy refilling
- Full set of replacement parts available from FlameStop.
